MultiSource Manufacturing LLC Completes 10th Acquisition Since Inception in 1998

Minneapolis, June 13, 2008

MultiSource Manufacturing LLC today announced the acquisition of MicroGroup Blaine, located in Blaine, MN. Effective immediately, MicroGroup Blaine has been renamed as MultiSource Aerospace LLC and will be operated as a wholly-owned subsidiary of MultiSource Manufacturing LLC. MultiSource Aerospace LLC performs diverse precision machining, primarily for the aerospace and defense industries. The company has a wide range of skills and services to meet the most demanding customers needs and recently received its AS9100 certification, which is considered a higher certification standard than ISO9100:2000 certification.

"The new MultiSource Aerospace subsidiary is a company with a sterling reputation for its high-quality products," said Gary Hadley, CEO of MultiSource. "It's growth potential and strong management culture made it a natural fit for our growth strategy. We look forward to working with the MultiSource Aerospace management team to help take them to the next level and to provide our combined customer base with additional capabilities."
